⁽¹⁾ Per share amounts have been calculated using average shares method.

⁽²⁾ Annualized.

⁽³⁾ Ratios include only income and expenses of the funds themselves, as presented in the Statements of Operations, and do not include any additional or pro rata amounts of income or expenses from the ownership of any other investment companies (as applicable).

⁽⁴⁾ Not Annualized

⁽⁵⁾ The ratios of expenses to average net assets include dividend and interest expenses. For the year ended March 31, 2020, 2022 and 2023, excluding dividend and interest expenses, the ratio of expenses to average net assets before fees waived/recouped by the Advisor were 1.05%, 1.01% and 1.03%, respectively. Excluding dividend and interest expenses, the ratio of expenses to average net assets after fees waived/recouped by the Advisor were 1.08%, 1.01% and 1.03%, respectively.

⁽⁶⁾ The ratios of net investment income to average net assets include dividend and interest expenses. For the year ended March 31, 2020, 2022 and 2023, excluding dividend and interest expenses, the ratio of net investment income to average net assets before fees waived/recouped by the Advisor were 3.19%, 2.07% and 3.14%, respectively. Excluding dividend and interest expenses, the ratio of net investment income to average net assets after fees waived/recouped by the Advisor were 3.16%, 2.07% and 3.14%, respectively.

September 30, 2024 (Unaudited)

NOTE 1 – ORGANIZATION

Bramshill Income Performance Fund (the "Fund") is a diversified series of Advisor Managed Portfolios (the "Trust"). The Trust was organized on February 16, 2023, as a Delaware Statutory Trust and is registered under the Investment Company Act of 1940, as amended (the "1940 Act") as an open-end investment management company. Bramshill Investments, LLC (the "Advisor") serves as the investment manager to the Fund. The inception date of the Fund was April 11, 2016. The investment objective of the Fund is to maximize total return.

The Fund is the successor to the Bramshill Income Performance Fund (the "Predecessor Fund"), a series of Trust for Advised Portfolios. The Predecessor Fund reorganized into the Fund on January 19, 2024 (the "AMP Reorganization").

- The AMP Reorganization was accomplished by a tax-free exchange of shares of the Fund for shares of the Predecessor Fund of equivalent aggregate net asset value.
- Fees and expenses incurred to affect the AMP Reorganization were borne by the Trust's Administrator. The
 management fee of the Fund does not exceed the management fee of the Predecessor fund. The AMP
 Reorganization did not result in a material change to the Fund's investment portfolio and there are no material
 differences in accounting policies of the Fund and the Predecessor fund.
- The Fund adopted the performance history of the Predecessor Fund.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP") for investment companies. The Fund is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification Topic 946. The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the period reported. Actual results may differ from those estimates.

(A) Securities Valuation – Investments in securities traded on a national securities exchange are valued at the last reported sales price on the exchange on which the security is principally traded. Securities traded on the NASDAQ exchanges are valued at the NASDAQ Official Closing Price ("NOCP"). Exchange-traded securities for which no sale was reported and NASDAQ securities for which there is no NOCP are valued at the mean of the most recent quoted bid and ask prices. Unlisted securities held by the Fund are valued at the last sale price in the over-the-counter ("OTC") market. If there is no trading on a particular day, the mean between the last quoted bid and ask price is used.

Fixed income securities are valued using prices provided by an independent pricing service approved by the Board of Trustees. Pricing services may use various valuation methodologies, including matrix pricing and other analytical models as well as market transactions and dealer quotations.

Futures contracts are valued at the settlement price on the exchange on which they are principally traded.

Exchange traded options are valued at the composite mean price, which calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is principally traded. On the last trading day prior to expiration, expiring options may be priced at intrinsic value.

Credit Default Swaps (CDS) are valued using the ISDA Standard Upfront Model and available market data. These positions are categorized as Level 2 in the fair value hierarchy.

Open-end funds issued by Investment Companies are valued at the NAVs of such companies for purchase and/or redemption orders placed on that day.

September 30, 2024 (Unaudited) (Continued)

When reliable market quotations are not readily available or a pricing service does not provide a valuation (or provides a valuation that in the judgment of the Advisor does not represent the security's fair value) or when, in the judgment of the Advisor, events have rendered the market value unreliable, a security is fair valued in good faith by the Advisor under procedures approved by the Board.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad levels and described below:

- Level 1 Quoted prices in active markets for identical securities. An active market for the security is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3 Significant unobservable inputs, including the Fund's own assumptions in determining the fair value of investments.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to fair value the Fund's investments in each category investment type as of September 30, 2024:

Description	Level 1	Level 2	Level 3	Total
Assets:				
Investments				
Corporate Bonds	\$ 5,318,569	\$299,380,073	\$ —	\$304,698,642
Preferred Stocks	68,939,558	169,567,875		238,507,433
U.S. Treasury Securities	_	123,729,943		123,729,943
Exchange-Traded Funds	99,500,831			99,500,831
Closed-End Funds	18,212,264			18,212,264
Open-End Funds	4,245,445	_		4,245,445
Money Market Funds	55,523,218			55,523,218
U.S. Treasury Bills		144,174,613		144,174,613
Total Investments	<u>\$251,739,885</u>	<u>\$736,852,504</u>	<u>\$</u>	<u>\$988,592,389</u>

See the Schedule of Investments for further detail of investment classifications.

- (B) Securities Sold Short The Fund is engaged in selling securities short, which obligates it to replace a borrowed security with the same security at current market value. The Fund incurs a loss if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund realizes a gain if the price of the security declines between those dates. Gains are limited to the price at which the Fund sold the security short, while losses are potentially unlimited in size. The Fund incurs expense when a security sold short pays a dividend or earns interest.
- (C) Federal Income Taxes The Fund has elected to be taxed as a Regulated Investment Company ("RIC") under the U.S. Internal Revenue Code of 1986, as amended, and intends to maintain this qualification and to distribute substantially all net taxable income to its shareholders. Therefore, no provision is made for federal income taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purpose, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses is recorded by the Fund.

September 30, 2024 (Unaudited) (Continued)

Management of the Fund is required to analyze all open tax years, as defined by IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state authorities. As of and during the period ended September 30, 2024, the Fund did not have a liability for any unrecognized tax benefits. Generally, tax authorities can examine tax returns filed for the preceding three years. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

- (D) Return of capital estimates Distributions received from the Fund's investments in Real Estate Investment Trusts ("REITs") are generally comprised of net investment income, capital gains, and return of capital. Certain of the Fund's investments in Closed-End Funds ("CEFs") also make distributions comprised of net investment income and return of capital. It is the policy of the Fund to estimate the character of distributions received from underlying REITs and CEFs based on historical data provided by the REITs and distribution notices provided by CEFs. After each calendar year end, REITs and CEFs report the actual tax character of these distributions. Differences between the estimated and actual amounts reported are reflected in the Funds' records in the year in which they are reported by adjusting related investment cost basis, capital gains and income, as necessary.
- (E) Distributions to Shareholders The Fund records distributions to shareholders, which are determined in accordance with income tax regulations, on the ex-dividend date. Distributions of net investment income, if any, are distributed monthly. The Fund intends to distribute all its net investment income including any cash received from its investments in CEFs and REITs, even if a portion may represent a return of capital. Net realized gains from investment transactions, if any, will be distributed to shareholders annually. The Fund may periodically make reclassifications among certain income and capital gains distributions determined in accordance with federal tax regulations, which may differ from GAAP. These reclassifications are due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.
- (F) Restricted securities Restricted securities are securities that are not registered for sale under the Securities Act of 1933 or applicable foreign law and that may be re-sold only in transactions exempt from applicable registration. Restricted securities include Rule 144A securities which may be sold normally to qualified institutional buyers. As of September 30, 2024, the Fund had restricted securities, all of which were Rule 144A securities, with a market value of \$50,705,653 or 5.1% of the Fund's net assets.
- (G) Deposits with Broker At September 30, 2024, the Fund held the following amounts with Brokers:

C	\$454,112
Wells Fargo Securities	74,220
Pershing LLC	\$379,892

(H) Derivatives – The Fund invests in certain derivative instruments, as detailed below.

Futures contracts – The Fund invests in futures to adjust its sensitivity to interest rate changes and to gain exposure to U.S. Treasury securities. While hedging strategies involving derivatives can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in other Fund investments.

Options Contracts – The Fund may write call and put options on securities, derivative instruments, or currencies. When the Fund writes a call or put option, an amount equal to the premium received is recorded as a liability and subsequently marked-to-market to reflect the current value of the option written. These liabilities are reflected as written options outstanding in the Statement of Assets and Liabilities. Premiums received from writing options which expire are treated as realized gains. Written options which are closed or exercised will result in a gain if the closing price of the underlying security is lower than the premium

September 30, 2024 (Unaudited) (Continued)

received. The Fund, as a writer of an option, has no control over whether the underlying security may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of said underlying security. The risk exists that the Fund may not be able to enter into a closing transaction because of an illiquid market.

The Fund purchases call and put options. The Fund pays a premium which is included in the Statement of Assets and Liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Purchasing options will result in a gain if the closing price of the transaction is higher than the premium paid.

Swap Contracts – The Fund enters into credit default swap agreements, credit default index swap agreements and similar agreements as a protection "seller" or as a "buyer" of credit protection. The credit default swap agreement or similar instruments may have as reference obligations one or more securities that are not held by the Fund. The protection "buyer" in a credit default swap agreement is generally obligated to pay the protection "seller" a periodic stream of payments over the term of the agreement, provided generally that no credit event on a reference obligation has occurred. In addition, at the inception of the agreement, the protection "buyer" may receive or be obligated to pay an additional up-front amount depending on the current market value of the contract. If a credit event occurs, an auction process is used to determine the "recovery value" of the contract. The seller then must pay the buyer the "par value" (full notional value) of the swap contract minus the "recovery value" as determined by the auction process. For credit default index swaps, the settlement payment for a constituent's credit event is scaled down to the weighting in the index.

As a seller of protection, the Fund generally receives a fixed rate of income throughout the term of the swap provided that there is no credit event. In addition, at the inception of the agreement, the Fund may receive or be obligated to pay an additional up-front amount depending on the current market value of the contract. If a credit event occurs, the Fund will be generally obligated to pay the buyer the "par value" (full notional value) of the swap contract minus the "recovery value" as determined by the auction process. Credit default swaps could result in losses if the Advisor does not correctly evaluate the creditworthiness of the underlying instrument on which the credit default swap is based. Additionally, if the Fund is a seller of a credit default swap and a credit event occurs, the Fund could suffer significant losses.

Changes in the value of swaps are recorded as unrealized appreciation (depreciation). Unrealized gains are reported as an asset and unrealized losses are reported as a liability. The change in value of swaps, including accruals of interest to be paid or received is reported as unrealized gains or losses. Gains or losses are realized upon termination of the contracts. The risk of loss on a swap contract may exceed the amount recorded as an asset or liability on the Statement of Assets and Liabilities. The notional amount of a swap contract is the reference amount pursuant to which the counterparties make payments. Risks associated with swap contracts include changes in the returns of underlying instruments, failure of the counterparties to perform under a contract's terms and the possible lack of liquidity with respect to the contracts.

The average monthly volume of derivatives held by the Fund during the period ended September 30, 2024 is set forth below:

Derivative Type	Unit of Measure	Average Quantity*
Credit Default Swaps.	Notional Amount	\$30,000,000

^{*} Credit default swaps held for 1 day during the period.

September 30, 2024 (Unaudited) (Continued)

Derivative Investment Holdings Categorized by Risk Exposure – There were no positions in derivatives as of September 30, 2024. The following table sets forth the Fund's realized gain (loss), as reflected in the Statement of Operations, by primary risk exposure and by type of derivative contract for the period ended September 30, 2024:

Amount of Realized Loss on Derivatives	
Risk Exposure Category	Swaps
Credit	\$(2,257)
Total	<u>\$(2,257)</u>
Change in Unrealized Gain/Loss on Derivatives	
Risk Exposure Category Swa	ap Contracts
Credit \$	
Total	

(I) Other – The Fund records security transactions on trade date. Realized gains and losses on sales of securities are reported on the basis of identified cost of securities delivered. Dividend income and expense are recognized on the ex-dividend date, and interest income and expense are recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the lives of the respective securities using the effective yield method. Withholding taxes on foreign dividends have been provided for in accordance with the Trust's understanding of the applicable country's tax rules and rates.

NOTE 3 – INVESTMENT MANAGEMENT AGREEMENT AND OTHER RELATED PARTY TRANSACTIONS

The Trust has an agreement with the Advisor to furnish investment advisory services to the Fund. Under the terms of this agreement, the Fund will pay the Advisor a monthly fee based on the Fund's average daily net assets at annual rate of 0.85%. Pursuant to a contractual fee waiver and reimbursement agreement, the Advisor will waive/reimburse the Fund for expenses in excess of 1.10% of average daily net assets for Institutional Class shares, excluding taxes, interest charges, litigation and other extraordinary expenses, acquired fund fees and expenses, interest and expense relating to short sales, borrowing costs, and brokers' commissions, and other charges relating to the purchase and sale of the Fund's portfolio securities. The Fund incurred \$3,760,379 for Advisory fees during the period ended September 30, 2024.

The Advisor is permitted to recapture amounts waived and/or reimbursed to a Fund within three years if the Fund's total annual operating expenses have fallen to a level below the expense limitation ("expense cap") in effect at the time the fees were earned or the expenses incurred. In no case will the Advisor recapture any amount that would result, on any particular business day of the Fund, in the Fund's total annual operating expenses exceeding the expense cap or any other lower limit then in effect. The Fund currently has no waiver balance subject to recapture.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Fund's administrator and fund accountant and transfer agent. The officers of the Trust are employees of Fund Services. U.S. Bank serves as the Fund's custodian and provides compliance services to the Funds. Quasar Distributors, LLC ("Quasar" or the "Distributor") acts as the Fund's distributor and principal underwriter. For the period ended September 30, 2024, the Fund incurred the following expenses for administration and fund accounting, compliance, custody and transfer agency fees:

Administration and fund accounting	\$333,836
Compliance Service	9,326
Custody	30,652
Transfer Agency	110,890

September 30, 2024 (Unaudited) (Continued)

At September 30, 2024, the Fund had payables due to Fund Services for administration and fund accounting, compliance, custody and transfer agency fees to U.S. Bank in the following amounts:

Administration and fund accounting	\$106,856
Compliance Services	3,282
Custody	9,285
Transfer Agency	32,260

The above payable amounts are included in Accrued other expenses and other liabilities in the Statement of Assets and Liabilities.

The Independent Trustees were paid \$8,714 for their services during the period ended September 30, 2024. The Fund pays no compensation to the Interested Trustee or officers of the Trust.

Trust-level expenses are allocated across the series of the Trust.

NOTE 4 – INVESTMENT TRANSACTIONS

Purchases and sales of investment securities (excluding short-term securities) for the period ended September 30, 2024, were as follows:

	Investments	Obligations
Purchases	\$160,658,327	\$28,371,464
Sales	\$158,228,830	\$ —

II C Covernment

NOTE 5 – FEDERAL INCOME TAX INFORMATION

At March 31, 2024, the components of accumulated earnings (losses) for federal income tax purposes were as follows:

Tax cost of Investments	\$831,591,231
Unrealized Appreciation	21,236,567 (26,589,859)
Net Unrealized Depreciation	\$ (5,353,292)
Undistributed Ordinary Income	235,331
Other Accumulated Loss	(33,815,258)
Total Accumulated Loss	<u>\$ (38,933,219</u>)

The difference between book basis and tax basis unrealized appreciation/depreciation is attributable in part to the tax deferral of losses on wash sales, and basis adjustments on investments in limited partnerships.

GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended March 31, 2024, permanent differences in book and tax accounting have been reclassified to capital, and accumulated earnings as follows:

Accumulated Losses	Paid In Capital
\$1,325	\$(1,325)

September 30, 2024 (Unaudited) (Continued)

The tax character of distributions paid during the six months ended September 30, 2024 and the year ended March 31, 2024 were as follows:

	Period Ended September 30, 2024	Year Ended March 31, 2024
Distributions Paid From:		
Ordinary Income	<u>\$19,456,921</u>	\$33,793,754
Total Distributions Paid	\$19,456,921	\$33,793,754

The Fund is required, in order to meet certain excise tax requirements, to measure and distribute annually, net capital gains realized during the twelve month period ending October 31. In connection with this requirement, the Fund is permitted, for tax purposes, to defer into its next fiscal year any net capital losses incurred from November 1 through the end of the fiscal year. Late year losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. As of March 31, 2024, the Fund had no late-year or post-October losses.

At March 31, 2024, the Fund had capital loss carryforwards, which reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal tax. Pursuant to the Internal Revenue Code, the character of such capital loss carryforwards is as follows:

Not Subject to Expiration		
Short-Term	Long-Term	Total
\$10,347,526	\$23,467,732	\$33,815,258

NOTE 6 – INDEMNIFICATIONS

In the normal course of business, the Fund enters into contracts that provide general indemnifications by the Fund to the counterparty to the contract. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

NOTE 7 – LINE OF CREDIT

The Fund has access to a \$25 million secured line of credit through an agreement with U.S. Bank. The Fund may temporarily draw on the line of credit to satisfy redemption requests or to settle investment transactions. Interest is charged to the Fund based on its borrowings at a rate per annum equal to the Prime Rate, to be paid monthly. During the period ended September 30, 2024, the Fund did not draw on this line of credit.

NOTE 8 – SECURITIES LENDING

The Fund may lend up to 33 1/3% of the securities in its portfolios to brokers, dealers, and other financial organizations that meet capital and other credit requirements under terms of participation in a securities lending program administered by U.S. Bank N.A. The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least 102% of the market value of the securities loaned. The Fund has the right under the terms of the lending agreement to recall the securities from the borrower on demand.

The borrower of any securities will pay the Fund any accrued income while the securities are on loan. The cash collateral received is invested in a money market fund which is redeemable on demand.

There are certain risks associated with securities lending, including the risk that the borrower may fail to return the securities on a timely basis or even the loss of rights in the collateral deposited by the borrower, if the borrower should fail financially. As a result the Fund may lose money.

September 30, 2024 (Unaudited) (Continued)

The Fund manages credit exposure arising from these lending transactions by, in appropriate circumstances, entering into master netting agreements and collateral agreements with third party borrowers that provide the Fund, in the event of default (such as bankruptcy or a borrower's failure to pay or perform), the right to net a third party borrower's rights and obligations under such agreement and liquidate and set off collateral against the net amount owed by the counterparty.

As of September 30, 2024, the Fund had equity securities on loan with a market value of \$3,228,978 and collateral value of \$3,320,909 which are presented gross on the Statement of Assets and Liabilities. The fees and interest income earned through the securities lending program are reflected in the Statement of Operations.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were available to be issued. Subsequent to the year end, the Fund has made the following distributions per share:

Record Date	Payable Date	Distribution Per Share
10/30/2024	10/31/2024	\$0.03680861

BRAMSHILL INCOME PERFORMANCE FUND ADDITIONAL INFORMATION

September 30, 2024 (Unaudited)

QUARTERLY PORTFOLIO SCHEDULE

The Fund files its complete schedule of portfolio holdings for the first and third quarters of each fiscal year with the SEC on Part F of Form N-PORT. The Fund's Form N-PORT is available without charge by visiting the SEC's Web site at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington D.C. You may obtain information on the operation of the Public Reference Room by calling (800) SEC-0330.

PROXY VOTING

You may obtain a description of the Fund's proxy voting policy and voting records, without charge, upon request by contacting the Fund directly at 1-877-BRAMS18 or on the EDGAR Database on the SEC's website at www.sec.gov. The Fund files its proxy voting records annually as of June 30, with the SEC on Form N-PX. The Fund's Form N-PX is available without charge by visiting the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington D.C. You may obtain information on the operation of the Public Reference Room by calling 1-800-SEC-0330.
