<sup>(</sup>a) Net investment income per share has been calculated based on average shares outstanding during the year.

<sup>(</sup>b) Recognition of net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying funds in which the Fund invests.

<sup>(</sup>c) Realized and unrealized gains and losses per share in the caption are balancing amounts necessary to reconcile the change in net asset value per share for the years, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to share transactions for the year.

<sup>(</sup>d) Amount represents less than \$0.005.

<sup>(</sup>e) These ratios exclude the impact of expenses of the underlying funds as represented in the Schedule of Investments. Recognition of net investment income by the Fund is affected by the timing of the underlying funds in which the Fund invests.

March 31, 2025

#### NOTE 1 – ORGANIZATION

Bramshill Income Performance Fund (the "Fund") is a diversified series of Advisor Managed Portfolios (the "Trust"). The Trust was organized on February 16, 2023, as a Delaware Statutory Trust and is registered under the Investment Company Act of 1940, as amended (the "1940 Act") as an open-end investment management company. Bramshill Investments, LLC (the "Advisor") serves as the investment manager to the Fund. The inception date of the Fund was April 11, 2016. The investment objective of the Fund is to maximize total return.

The Fund is the successor to the Bramshill Income Performance Fund (the "Predecessor Fund"), a series of Trust for Advised Portfolios. The Predecessor Fund reorganized into the Fund on January 19, 2024 (the "AMP Reorganization").

- The AMP Reorganization was accomplished by a tax-free exchange of shares of the Fund for shares of the Predecessor Fund of equivalent aggregate net asset value.
- Fees and expenses incurred to affect the AMP Reorganization were borne by the Trust's Administrator. The
  management fee of the Fund does not exceed the management fee of the Predecessor fund. The AMP
  Reorganization did not result in a material change to the Fund's investment portfolio and there are no material
  differences in accounting policies of the Fund and the Predecessor fund.
- The Fund adopted the performance history of the Predecessor Fund.

#### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP") for investment companies. The Fund is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification Topic 946. The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the period reported. Actual results may differ from those estimates.

(A) Securities Valuation – The valuation of the Fund's investments is performed in accordance with the principles found in Rule 2a-5 of the 1940 Act. Investments in securities traded on a national securities exchange are valued at the last reported sales price on the exchange on which the security is principally traded. Securities traded on the NASDAQ exchanges are valued at the NASDAQ Official Closing Price ("NOCP"). Exchange-traded securities for which no sale was reported and NASDAQ securities for which there is no NOCP are valued at the mean of the most recent quoted bid and ask prices. Unlisted securities held by the Fund are valued at the last sale price in the over-the-counter ("OTC") market. If there is no trading on a particular day, the mean between the last quoted bid and ask price is used. Fixed income securities are valued using prices provided by an independent pricing service approved by the Board of Trustees of the Trust (the "Board" or the "Trustees"). Pricing services may use various valuation methodologies, including matrix pricing and other analytical models as well as market transactions and dealer quotations. The Board has designated the Advisor as the valuation designee of the Fund. In its capacity as valuation designee, the Advisor has adopted procedures and methodologies to fair value Fund investments whose market prices are not "readily available" or are deemed to be unreliable.

Futures contracts are valued at the settlement price on the exchange on which they are principally traded.

Exchange traded options are valued at the composite mean price, which calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is principally traded. On the last trading day prior to expiration, expiring options may be priced at intrinsic value.

Credit Default Swaps (CDS) are valued using the ISDA Standard Upfront Model and available market data. These positions are categorized as Level 2 in the fair value hierarchy.

March 31, 2025 (Continued)

Open-end funds issued by Investment Companies are valued at the NAVs of such companies for purchase and/or redemption orders placed on that day.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad levels and described below:

- Level 1 unadjusted quoted prices in active markets for identical securities. An active market for the security is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value.
- Level 2 observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3 significant unobservable inputs, including the Fund's own assumptions in determining the fair value of investments.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to fair value the Fund's investments in each category investment type as of March 31, 2025:

Description	Level 1	Level 2	Level 3	Total
Assets:				
Investments				
Corporate Bonds	\$ —	\$358,864,393	\$ —	\$ 358,864,393
Preferred Stocks	66,614,907	153,194,554		219,809,461
U.S. Treasury Securities		218,102,080		218,102,080

Purchased Options		3,025,000		3,025,000
Investments Purchased with Proceeds				
from Securities Lending	44,660,275			44,660,275
Money Market Funds	15,831,024			15,831,024
U.S. Treasury Bills		101,751,285		101,751,285
Total Investments	\$282,775,323	<u>\$834,937,312</u>	<u>\$</u>	<u>\$1,117,712,635</u>

See the Schedule of Investments for further detail of investment classifications.

- (B) Securities Sold Short The Fund may engage in selling securities short, which obligates it to replace a borrowed security with the same security at current market value. The Fund incurs a loss if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund realizes a gain if the price of the security declines between those dates. Gains are limited to the price at which the Fund sold the security short, while losses are potentially unlimited in size. The Fund incurs expense when a security sold short pays a dividend or earns interest.
- (C) Federal Income Taxes The Fund has elected to be taxed as a Regulated Investment Company ("RIC") under the U.S. Internal Revenue Code of 1986, as amended, and intends to maintain this qualification and to distribute substantially all net taxable income to its shareholders. Therefore, no provision is made for federal income taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purpose, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses is recorded by the Fund.

March 31, 2025 (Continued)

Management of the Fund is required to analyze all open tax years, as defined by IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state authorities. As of and during the year ended March 31, 2025, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. Generally, tax authorities can examine tax returns filed for the preceding three years. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

- (D) Return of capital estimates Distributions received from the Fund's investments in Real Estate Investment Trusts ("REITs") are generally comprised of net investment income, capital gains, and return of capital. Certain of the Fund's investments in Closed-End Funds ("CEFs") also make distributions comprised of net investment income and return of capital. It is the policy of the Fund to estimate the character of distributions received from underlying REITs and CEFs based on historical data provided by the REITs and distribution notices provided by CEFs. After each calendar year end, REITs and CEFs report the actual tax character of these distributions. Differences between the estimated and actual amounts reported are reflected in the Funds' records in the year in which they are reported by adjusting related investment cost basis, capital gains and income, as necessary.
- (E) Distributions to Shareholders The Fund records distributions to shareholders, which are determined in accordance with income tax regulations, on the ex-dividend date. Distributions of net investment income, if any, are distributed monthly. The Fund intends to distribute all its net investment income including any cash received from its investments in CEFs and REITs, even if a portion may represent a return of capital. Net realized gains from investment transactions, if any, will be distributed to shareholders annually. The Fund may periodically make reclassifications among certain income and capital gains distributions determined in accordance with federal tax regulations, which may differ from GAAP. These reclassifications are due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.
- (F) Restricted securities Restricted securities are securities that are not registered for sale under the Securities Act of 1933 or applicable foreign law and that may be re-sold only in transactions exempt from applicable registration. Restricted securities include Rule 144A securities which may be sold normally to qualified institutional buyers. As of March 31, 2025, the Fund had restricted securities, all of which were Rule 144A securities, with a market value of \$21,596,950 or 2.0% of the Fund's net assets.
- (G) Deposits with Broker At March 31, 2025, the Fund held the following amounts with Brokers:

Pershing LLC	\$ 96,455
Wells Fargo Securities	75,867
Total	\$172,322

(H) Derivatives – The Fund invests in certain derivative instruments, as detailed below.

Futures contracts – The Fund invests in futures to adjust its sensitivity to interest rate changes and to gain exposure to U.S. Treasury securities. While hedging strategies involving derivatives can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in other Fund investments.

Options Contracts – The Fund may write call and put options on securities, derivative instruments, or currencies. When the Fund writes a call or put option, an amount equal to the premium received is recorded as a liability and subsequently marked-to-market to reflect the current value of the option written. These liabilities are reflected as written options outstanding in the Statement of Assets and Liabilities. Premiums received from writing options which expire are treated as realized gains. Written options which are closed or exercised will result in a gain if the closing price of the underlying security is lower than the premium received. The Fund, as a writer of an option, has no control over whether the underlying security may be sold

March 31, 2025 (Continued)

(call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of said underlying security. The risk exists that the Fund may not be able to enter into a closing transaction because of an illiquid market. There were no written options held by the Fund as of March 31, 2025.

The Fund purchases call and put options. The Fund pays a premium which is included in the Statement of Assets and Liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Purchasing options will result in a gain if the closing price of the transaction is higher than the premium paid.

Swap Contracts – The Fund enters into credit default swap agreements, credit default index swap agreements and similar agreements as a protection "seller" or as a "buyer" of credit protection. The credit default swap agreement or similar instruments may have as reference obligations one or more securities that are not held by the Fund. The protection "buyer" in a credit default swap agreement is generally obligated to pay the protection "seller" a periodic stream of payments over the term of the agreement, provided generally that no credit event on a reference obligation has occurred. In addition, at the inception of the agreement, the protection "buyer" may receive or be obligated to pay an additional up-front amount depending on the current market value of the contract. If a credit event occurs, an auction process is used to determine the "recovery value" of the contract. The seller then must pay the buyer the "par value" (full notional value) of the swap contract minus the "recovery value" as determined by the auction process. For credit default index swaps, the settlement payment for a constituent's credit event is scaled down to the weighting in the index.

As a seller of protection, the Fund generally receives a fixed rate of income throughout the term of the swap provided that there is no credit event. In addition, at the inception of the agreement, the Fund may receive or be obligated to pay an additional up-front amount depending on the current market value of the contract. If a credit event occurs, the Fund will be generally obligated to pay the buyer the "par value" (full notional value) of the swap contract minus the "recovery value" as determined by the auction process. Credit default swaps could result in losses if the Advisor does not correctly evaluate the creditworthiness of the underlying instrument on which the credit default swap is based. Additionally, if the Fund is a seller of a credit default swap and a credit event occurs, the Fund could suffer significant losses.

Changes in the value of swaps are recorded as unrealized appreciation (depreciation). Unrealized gains are reported as an asset and unrealized losses are reported as a liability. The change in value of swaps, including accruals of interest to be paid or received is reported as unrealized gains or losses. Gains or losses are realized upon termination of the contracts. The risk of loss on a swap contract may exceed the amount recorded as an asset or liability on the Statement of Assets and Liabilities. The notional amount of a swap contract is the reference amount pursuant to which the counterparties make payments. Risks associated with swap contracts include changes in the returns of underlying instruments, failure of the counterparties to perform under a contract's terms and the possible lack of liquidity with respect to the contracts.

The average monthly volume of derivatives held by the Fund during the year ended March 31, 2025 is set forth below:

Derivative Type	Unit of Measure	Ave	erage Quantity
Purchased Options	Contracts		2,308
Credit Default Swap	Notional Amount	\$	3,000,000*

<sup>\*</sup> Credit default swap held for 1 day during the period.

March 31, 2025 (Continued)

Derivative Investment Holdings Categorized by Risk Exposure – There were no positions in derivatives as of March 31, 2025. The following table sets forth the Fund's realized gain (loss), as reflected in the Statement of Operations, by primary risk exposure and by type of derivative contract for the year ended March 31, 2025:

Amount of Realized Loss on Derivatives	
Risk Exposure Category	Swaps
Credit	\$(2,257)
Total	\$(2,257)
Change in Unrealized Gain/Loss on Derivatives	
Risk Exposure Category Swa	ap Contracts
Credit         \$	
Total	_

(i) Security Transactions and Investment Income — The Fund records security transactions on trade date. Realized gains and losses on sales of securities are reported on the basis of identified cost of securities delivered. Dividend income and expense are recognized on the ex-dividend date, and interest income and expense are recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the lives of the respective securities using the effective yield method. Withholding taxes on foreign dividends have been provided for in accordance with the Trust's understanding of the applicable country's tax rules and rates.

### NOTE 3 – INVESTMENT MANAGEMENT AGREEMENT AND OTHER RELATED PARTY TRANSACTIONS

The Trust has an agreement with the Advisor to furnish investment advisory services to the Fund. Under the terms of this agreement, the Fund will pay the Advisor a monthly fee based on the Fund's average daily net assets at annual rate of 0.85%. Pursuant to a contractual fee waiver and reimbursement agreement, the Advisor will waive/reimburse the Fund for expenses in excess of 1.10% of average daily net assets for Institutional Class shares, excluding taxes, interest charges, litigation and other extraordinary expenses, acquired fund fees and expenses, interest and expense relating to short sales, borrowing costs, and brokers' commissions, and other charges relating to the purchase and sale of the Fund's portfolio securities. The Expense Cap will remain in effect through at least July 31, 2025. The Fund incurred \$8,147,261 for Advisory fees during the year ended March 31, 2025.

The Advisor is permitted to recapture amounts waived and/or reimbursed to a Fund within three years if the Fund's total annual operating expenses have fallen to a level below the expense limitation ("expense cap") in effect at the time the fees were earned or the expenses incurred. In no case will the Advisor recapture any amount that would result, on any particular business day of the Fund, in the Fund's total annual operating expenses exceeding the expense cap or any other lower limit then in effect. The Fund currently has no waiver balance subject to recapture.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Fund's administrator and fund accountant and transfer agent. The officers of the Trust are employees of Fund Services. U.S. Bank serves as the Fund's custodian and provides compliance services to the Funds. Quasar Distributors, LLC ("Quasar" or the "Distributor") acts as the Fund's distributor and principal underwriter. For the year ended March 31, 2025, the Fund incurred expenses for administration and fund accounting, transfer agent, custody, and compliance fees as detailed on the Statement of Operations.

At March 31, 2025, the Fund had payables for administration and fund accounting, transfer agent, custody, and compliance fees as detailed on the Statement of Assets and Liabilities.

March 31, 2025 (Continued)

The Independent Trustees were paid \$15,975 for their services during the year ended March 31, 2025. The Fund pays no compensation to the Interested Trustee or officers of the Trust.

Trust-level expenses are allocated across the series of the Trust.

#### **NOTE 4 – CONTROL OWNERSHIP**

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates presumption of control of the fund under 2(a)(9) of the 1940 Act. As of March 31, 2025, UBS Financial Services, Inc. held approximately 27%, in aggregate for the benefit of others, of the outstanding shares of the Fund.

#### NOTE 5 – INVESTMENT TRANSACTIONS

Purchases and sales of investment securities (excluding short-term securities) for the year ended March 31, 2025, were as follows:

	Investments	Obligations
Purchases	\$476,945,383	\$132,343,540
Sales	\$383,611,746	\$ —

#### NOTE 6 – FEDERAL INCOME TAX INFORMATION

At March 31, 2025, the components of accumulated earnings (losses) for federal income tax purposes were as follows:

Tax cost of Investments	<u>\$1,127,430,606</u>
Unrealized Appreciation	
Net Unrealized Depreciation	
Undistributed Ordinary Income	
Other Accumulated Losses	(41,411,625)
Total Accumulated Losses	\$ (51,129,596)

The difference between book basis and tax basis unrealized appreciation/depreciation is attributable in part to the tax deferral of losses on wash sales, and basis adjustments on investments in limited partnerships.

GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended March 31, 2025, there were no permanent differences in book and tax accounting reclassified to capital and accumulated losses.

The tax character of distributions paid during the years ended March 31, 2025 and March 31, 2024 were as follows:

	Year Ended March 31, 2025	Year Ended March 31, 2024
Distributions Paid From:		
Ordinary Income	\$41,212,232	\$33,793,754
Return of Capital	160,631	
Total Distributions Paid.	\$41,372,863	\$33,793,754

The Fund is required, in order to meet certain excise tax requirements, to measure and distribute annually, net capital gains realized during the twelve month period ending October 31. In connection with this requirement, the Fund is permitted, for tax purposes, to defer into its next fiscal year any net capital losses incurred from November 1 through

March 31, 2025 (Continued)

the end of the fiscal year. Late year ordinary losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund had no late year ordinary losses or post October capital losses as of March 31, 2025.

At March 31, 2025, the Fund had capital loss carryforwards, which reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal tax. Pursuant to the Internal Revenue Code, the character of such capital loss carryforwards is as follows:

Not Subject to Expiration			
Short-Term	Long-Term	Total	
\$10,948,577	\$30,463,048	\$41,411,625	

#### **NOTE 7 – INDEMNIFICATIONS**

In the normal course of business, the Fund enters into contracts that provide general indemnifications by the Fund to the counterparty to the contract. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

#### NOTE 8 – NEW ACCOUNTING PRONOUNCEMENT

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"). ASU 2023-07 is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment's profit or loss and assess potential future cash flows for each reportable segment and the entity as a whole. The amendments expand a public entity's segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker, clarifying when an entity may report one or more additional measures to assess segment performance, requiring enhanced interim disclosures and providing new disclosure requirements for entities with a single reportable segment, among other new disclosure requirements. The amendments are effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. Management has evaluated the impact of adopting ASU 2023-07 with respect to the financial statements and disclosures and determined there is no material impact for the Fund.

#### **NOTE 9 – LINE OF CREDIT**

The Fund has access to a \$25 million secured line of credit through an agreement with U.S. Bank. The Fund may temporarily draw on the line of credit to satisfy redemption requests or to settle investment transactions. Interest is charged to the Fund based on its borrowings at a rate per annum equal to the Prime Rate, to be paid monthly. The line of credit was renewed on December 17, 2024 and will mature, unless renewed, no later than December 16, 2025. During the year ended March 31, 2025, the Fund did not draw on this line of credit.

#### NOTE 10 - SECURITIES LENDING

The Fund may lend securities in its portfolio to approved brokers, dealers and financial institutions under terms of participation in a securities lending program, which is administered by the U.S. Bank N.A. The securities lending agreement requires that loans are initially collateralized in an amount equal to at least 102% of the then current market value of any other loaned securities. The custodian performs marking to market loaned securities and collateral daily. Each borrower is required, if necessary, to deliver additional collateral so that the total collateral held in the account for all loans of the Funds to the borrower will equal at least 100% of the market value of the loaned securities.

The cash collateral is invested by the U.S. Bank N.A. in accordance with approved investment guidelines. Those guidelines allow the cash collateral to be invested in readily marketable, high quality, short-term obligations issued or guaranteed by the United States Government; however, such investments are subject to risk of payment delays, declines in the value of collateral provided, default on the part of the issuer or counterparty, or otherwise may not generate

March 31, 2025 (Continued)

sufficient interest to support the costs associated with securities lending. The Fund could also experience delays in recovering their securities and possible loss of income or value if the borrower fails to return the borrowed securities, although the Fund is indemnified from this risk by contract with the securities lending agent. Additionally, the Fund is subject to the risk of loss from investments that it makes with the cash received as collateral. The Fund manages credit exposure arising from these lending transactions by, in appropriate circumstances, entering into master netting agreements and collateral agreements with third-party borrowers that provide the Fund, in the event of default (such as bankruptcy or a borrower's failure to pay or perform), the right to net a third-party borrower's rights and obligations under such agreement and liquidate and set off collateral against the net amount owed by the counterparty.

The collateral invested in the Fund, if any, is reflected in the Schedule of Investments and is included in the Statements of Assets and Liabilities in the line item labeled "Investments, at value." A liability of equal value to the cash collateral received and subsequently invested in the Fund is included on the Statements of Assets and Liabilities as "Payable upon return of securities loaned." The borrower of any securities will pay the Fund any accrued income while the securities are on loan. The cash collateral received is invested in a money market fund which is redeemable upon demand. The Fund receives compensation in the form of loan fees owed by borrowers and income earned on collateral investments and pays a fee to the U.S. Bank N.A. for administering the securities lending program. The fees and interest income, net of any fees, earned through the securities lending program are reflected as "Securities lending income" in the Statement of Operations.

Management has elected not to offset the value of securities on loan and collateral received. As of March 31, 2025, the value of the securities on loan and payable for collateral due to broker were as follows:

Value of Securities	Fund Collateral	
Loaned	Received*	
\$42,950,176	\$44,660,275	

<sup>\*</sup> The cash collateral received was invested in the First American Government Obligations Fund Class X, with an overnight and continuous maturity, as shown on the Statement of Assets and Liabilities.

#### **NOTE 11 – SUBSEQUENT EVENTS**

In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were available to be issued. Subsequent to the year end, the Fund has made the following distributions per share:

Record Date	Payable Date	Distribution Per Share
4/29/2025	4/30/2025	\$0.03269

Other than what has been disclosed, there were no other significant subsequent events that would require adjustment or disclosure in these financial statements.

#### **NOTE 12 – PRINCIPAL RISKS**

Below is a summary of some, but not all, of the principal risks of investing in the Fund, each of which may adversely affect the Fund's net asset value and total return. The Fund's most recent prospectus provides further descriptions of the Fund's investment objective, principal investment strategies and principal risks.

#### Credit Risk

If issuers of fixed income securities in which the Fund invests experience unanticipated financial problems, their issue is likely to decline in value. Changes in the market's perception of the issuer's financial strength or in a security's credit rating, which reflects a third party's assessment of the credit risk presented by a particular issuer, may affect debt securities' value. In addition, the Fund is subject to the risk that the issuer of a fixed income security will fail to make timely payments of interest or principal, or may stop making such payments altogether.

March 31, 2025 (Continued)

#### Interest Rate Risk

Interest rate changes may affect the value of a debt instrument indirectly (especially in the case of fixed rate debt securities) and directly (especially in the case of instruments whose rates are adjustable). When interest rates increase, fixed income securities generally will decline in value and, as a result, an increase in interest rates may result in a decrease in the value of debt securities held by the Fund. Conversely, as interest rates decrease, the prices of fixed income securities tend to increase. The Federal Reserve has raised interest rates from historically low levels. Any additional interest rate increases in the future may cause the value of fixed-income securities to decrease.

#### Financials Sector Risk

Financial services companies are subject to extensive governmental regulation that may limit both the amounts and types of loans and other financial commitments they can make, the interest rates and fees they can charge, the scope of their activities, the prices they can charge, and the amount of capital they must maintain. Profitability is largely dependent on the availability and cost of capital funds and can fluctuate significantly when interest rates change or due to increased competition. In addition, deterioration of the credit markets generally may cause an adverse impact in a broad range of markets, including U.S. and international credit and interbank money markets generally, thereby affecting a wide range of financial institutions and markets. Certain events in the financials sector may cause an unusually high degree of volatility in the financial markets, both domestic and foreign, and cause certain financial services companies to incur large losses. Securities of financial services companies may experience a dramatic decline in value when such companies experience substantial declines in the valuations of their assets, take action to raise capital (such as the issuance of debt or equity securities), or cease operations. Credit losses resulting from financial difficulties of borrowers and financial losses associated with investment activities can negatively impact the sector. Insurance companies may be subject to severe price competition. Adverse economic, business or political developments could adversely affect financial institutions engaged in mortgage finance or other lending or investing activities directly or indirectly connected to the value of real estate.

### BRAMSHILL INCOME PERFORMANCE FUND REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Bramshill Income Performance Fund and Board of Trustees of Advisor Managed Portfolios

#### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Bramshill Income Performance Fund, a series of Advisor Managed Portfolios (the "Fund") as of March 31, 2025, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the three years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of March 31, 2025, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The Fund's financial highlights for the years ended March 31, 2022, and prior, were audited by other auditors whose report dated May 26, 2022, expressed an unqualified opinion on those financial highlights.

#### Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2025, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor for one or more investment companies within the Trust since 2023.

# BRAMSHILL INCOME PERFORMANCE FUND ADDITIONAL INFORMATION

March 31, 2025 (Unaudited)

#### TAX INFORMATION

For the year ended March 31, 2025, certain dividends paid by the Fund may be subject to a maximum tax rate of 23.8%, as provided for by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The percentage of dividends declared from ordinary income designated as qualified dividend income was 6.86%.

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the year ended March 31, 2025 was 6.06%.

The Percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871(k)(2)(C) for the Fund was 0.00%.

#### APPROVAL OF INVESTMENT ADVISORY AGREEMENT

At a meeting held on November 20-21, 2024 (the "Meeting"), the Board of Trustees (the "Board" or "Trustees") of Advisor Managed Portfolios (the "Trust"), including all Trustees who were not "interested persons" of the Trust (the "Independent Trustees"), as that term is defined in the Investment Company Act of 1940, considered and approved the continuance of the investment advisory agreement (the "Advisory Agreement") with Bramshill Investments, LLC (the "Advisor") for the Bramshill Income Performance Fund (the "Fund").

In advance of the Meeting, the Board received and reviewed substantial information regarding the Fund, the Advisor, and the services provided by the Advisor to the Fund under the Advisory Agreement, including information about the portfolio managers, the resources of the Advisor, and the Fund's performance and advisory fee. This information formed the primary (but not exclusive) basis for the Board's determinations. The Trustees considered the review of the Advisory Agreement to be an ongoing process and employed the accumulated information, knowledge, and experience they had gained with the Advisor. The information prepared specifically for the review of the Advisory Agreement supplemented the information provided to the Trustees throughout the year related to the Advisor and the Fund. The Board and its committees met regularly during the year and the information provided and topics discussed at such meetings were relevant to the Board's review of the Advisory Agreement. Some of these reports and other data included, among other things, materials that outlined the investment performance of the Fund; compliance, regulatory, and risk management matters; the trading practices of the Advisor; valuation of investments; fund expenses; and overall market and regulatory developments. The Independent Trustees were advised by independent legal counsel during the review process, including meeting in executive sessions with such counsel without representatives from the Advisor present. In connection with their review, the Independent Trustees also received a memorandum from independent legal counsel outlining their fiduciary duties and legal standards in reviewing the Advisory Agreement.

In considering the Advisory Agreement, the Board considered the following factors and made the following determinations. In its deliberations, the Board did not identify any single factor or piece of information as all important, controlling, or determinative of its decision, and each Trustee may have attributed different weights to the various factors and information.

- In considering the nature, extent and quality of the services provided by the Advisor, the Trustees considered the Advisor's specific responsibilities in all aspects of the day-to-day management of the Fund, as well as the qualifications, experience and responsibilities of the portfolio managers and other key personnel who are involved in the day-to-day activities of the Fund. The Board considered the Advisor's resources and compliance structure, including information regarding its compliance program, chief compliance officer and compliance record and its disaster recovery/business continuity plan. The Board also considered its knowledge of the Advisor's operations, and noted that during the course of the year the Trustees met with the Advisor to discuss the Fund's performance, the Advisor's investment outlook, various marketing and compliance topics, and the Advisor's risk management process. The Board concluded that the Advisor had sufficient quality and depth of personnel, resources, investment methods and compliance policies and procedures essential to performing its duties under the Advisory Agreement and that, in the Board's view, the nature, overall quality, and extent of the management services provided were satisfactory and reliable.
- In assessing the quality of the portfolio management delivered by the Advisor, the Board considered the Fund's performance on both an absolute basis and in comparison to its peer groups (a larger group category and a smaller, focused group), based on information provided by an independent consulting firm, and to its

# BRAMSHILL INCOME PERFORMANCE FUND ADDITIONAL INFORMATION

March 31, 2025 (Unaudited) (Continued)

benchmark index. The Board considered that the Fund outperformed the Bloomberg US Aggregate Bond Index for the one-, three-, and five-year periods ended June 30, 2024. The Board also considered that the Fund outperformed both its peer groups for the one-, three-, and five-year periods ended September 30, 2024.

- The Trustees reviewed the cost of the Advisor's services, and the structure and level of the advisory fee payable by the Fund, including a comparison of the fee to fees payable by its peer groups (a larger group category and a smaller, focused group), based on information provided by an independent consulting firm. The Trustees noted that the advisory fee was below the focused peer group average and was in the fourth quartile of the peer group out of four quartiles (a higher quartile number indicates a lower advisory fee). The Trustees also noted that the Fund's total expense ratio, both gross and net, was below both the focused peer group averages and the larger peer group averages and was in the fourth quartile of the focused peer group out of four quartiles (a higher quartile number indicates lower expenses). After reviewing the materials that were provided, the Board concluded that the advisory fee was fair and reasonable in light of the services provided.
- In considering whether economies of scale have been achieved, the Trustees reviewed the Fund's fee structure
  and asset level. The Trustees concluded that they will have the opportunity to periodically reexamine whether
  economies of scale have been achieved.
- The Trustees considered the profitability of the Advisor from managing the Fund. In assessing the Advisor's profitability, the Trustees reviewed the analysis provided by the Advisor and took into account both the direct and indirect benefits to the Advisor from managing the Fund. The Trustees concluded that the Advisor's profits from managing the Fund were not excessive and, after a review of the relevant financial information, that the Advisor appeared to have adequate capitalization and/or would maintain adequate profit levels to support the Fund.

# CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS FOR OPEN-END INVESTMENT COMPANIES

There were no changes in or disagreements with accountants during the period covered by this report.
